

Cross away from buses, parked cars and corners so that motorists can easily see you.

Do not threaten yourself and others.

Be visible, wear reflexive accessories.

On a sidewalk, move on the right side.

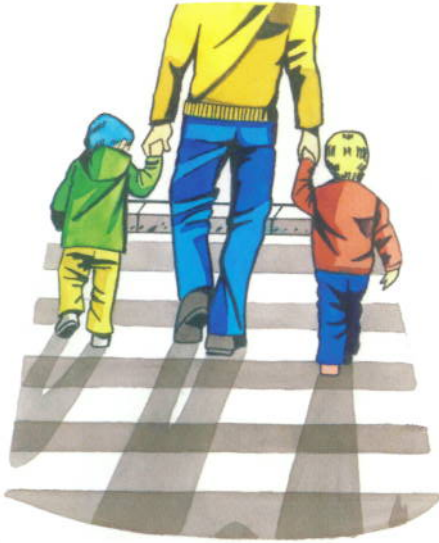

On a road, move on the left side behind the verge.

Walk at most in two people next to each other.

Use pedestrian crossings and traffic lights, wherever possible.

Wait until all traffic has stopped before crossing. Make eye contact with a car driver before you step off the pavement.

Use designated pedestrian areas where possible.

Do not risk, be cautious.
